

Media Pitch Email — Marviano Cosmetics

Subject line: ■ Introducing Marviano Cosmetics: Beauty That Moves With You

Hi Regina Kadima,

I hope you're doing well! I'm reaching out on behalf of **Marviano Cosmetics**, an emerging beauty brand redefining lip products for the modern, on-the-go woman. Marviano's mission is simple: create lip liners and glosses that stay flawless — through every sip, smile, and statement.

This fall, Marviano is launching its newest line of **smudge-proof, waterproof, and hydrating lip liners** designed to complement every skin tone. Each shade is formulated with high-performance pigments and a comfort-matte finish that glides on smoothly and stays put all day.

Unlike traditional formulas that fade or dry out, Marviano's blend of natural oils and long-wear technology ensures your lips stay soft, vibrant, and photo-ready — from morning coffee to late-night events.

What makes Marviano stand out:

- **Inclusive beauty:** A rich range of nude, berry, and bold tones designed to flatter every complexion.
- **Real results:** Lightweight, kiss-proof wear tested for lasting comfort.
- **Empowerment through beauty:** Created by women who wanted products that keep up with their pace — not slow them down.

I'd love to offer your team an exclusive first look at the collection, along with high-res product images, a brand Q&A, and sample requests if you're interested in coverage. The line officially drops later this fall and will be available online at www.marvianocosmetics.com.

Marviano's vision is to celebrate confidence, individuality, and authenticity — the kind of beauty that moves with you, not against you.

Would you be open to receiving our full press kit or testing a few samples for your next beauty round-up? I'd be happy to coordinate details or provide early access to the media kit.

Warm regards,

Regina Kadima
